UNIT4

Right for Your Business

Unit4 ERPx
The next generation in smart ERP

UNIT4 ERP^X

For over 40 years Unit4 has focused on delivering enterprise solutions to mid-sized, people-centric organizations like yours. We understand that your people come first, even more so than for product-centric organizations. So we build a better **People Experience** into our solutions, helping transform the way your people work. We've also learned that many organizations focus on three key areas:

Productivity

Providing the right tools to do more with less

Velocity

Doing things fast, but with purpose – running a tight business

Resilience

Resilient to change, disruption, and advancing technologies.

Why ERPx?

Right for Your Business

By combining our mid-sized experience – with a relentless focus on people – onto an industry-leading cloud platform, we've built finance and HR solutions to be just right **4U**.

- ✓ Purpose-built for your people-centric industry
- ✓ Focused on mid-market businesses like yours
- ✓ Localized for multiple countries around the globe
- ✓ Flexible to meet your unique and changing needs
- ✓ Modern cloud platform

![UNIT4]

DO MORE WITH LESS

Capabilities that are right for your industry

- Industry-specific functionality: Professional Services, Non-profits, Public Sector, Higher Education.
- Mid-size businesses: we understand your complexities.
- Localizations: dedicated to the countries we serve.
- Unifying multiple business processes: Finance, HR, Project management, Procurement.
- Delivered by people who know you: Professional Service, Customer Support, Partners.

DO THINGS FASTER

User experience and automation that optimizes how people work

- Right for all types of users: powerful for pros, lightweight for everyone, automated whenever possible.
- 10 second UIs: 10 second interactions, natural language, Slack / Teams / Outlook, on the fly self-composing apps.
- Smart automation services: using Machine Learning to automate common tasks.
- Easy accessibility: across multiple devices.

BE RESILIENT TO CHANGE

Modern cloud platform to deliver agility

- Public Cloud: enhanced performance, auto-scaling, geo-distribution, AI / natural language understanding.
- Microservices / APIs: faster changes, independent user experience, synchronization of external and internal apps.
- Extension / Integration Kits: build your own app, integrations and extensions out-of-the-box, expanding community of contributors

UNIT4

UNIT4

Why is next-gen ERP important?

Ray Wang
Founder & Principal Analyst,
Constellation Research

"Until now, ERP was often holding organizations back, but we're seeing the emergence of business-critical systems delivered in a way that customers can simply benefit from the exact functionality their people need to be effective."

Mickey North-Rizza
Program Vice President, Enterprise Applications and Digital Transformation, IDC

"AI-infused innovative SaaS apps architected with microservices will allow organizations to quickly adapt to changing business models, and flex to incorporate new technology, while delivering user experiences that drive productivity."

David Wilson
CEO, Fosway Group

"People work differently today...Unit4 is focused on making ERP the enabler of employee experience, which means integrating people processes and HCM to create one seamless digital experience across the organization."
